<b>Underparts</b>	White to lightly washed yellow		White
<b>R5, r6</b>	Without white	Small and indistinct white or whitish patches (Fig, 262A, p.458)	Distinct white patches (Fig. 262B, p.458)

**Notes:**

1. Easiest to age birds before sexing.
2. All age/sex criteria should be combined for reliable determinations.
3. Some intermediates will not be reliably aged and/or sexed.
